Subject Re: update

Would you like to come into the field for some research training. We are starting a research project on wetland hydrology. The graduate student who will do most of the work is training a couple of us on collecting data. That will take all day. Otherwise could we get together in the evening?

Subject: update

Can we find a time to talk on Monday so I can update you on upcoming events? Nearly any time is good for me.

I hope you are well.
